

# KINGSFORD SMITH DRIVE UPGRADE

## Community Notice

### Energex service installation

During May 2016, new underground power cables will be installed at four locations along Kingsford Smith Drive as part of the upgrade, including:

- Day Street, Hamilton
  - Toorak Road, Hamilton
  - Riverview Terrace, Hamilton
  - across Kingsford Smith Drive at Quarry Street, Hamilton.
- See map overleaf for installation locations.

#### Riverview Terrace, Hamilton

From **Sunday 15 May 2016**, for approximately two weeks, power cables will be installed along Kingsford Smith Drive at Riverview Terrace and the entry to the service road. The new cables will connect the Energex substation on the corner of Riverview Terrace to existing services below the service road.

Due to traffic permitting requirements, this work will occur at night **between 8pm and 5am, Sunday to Thursday**. Access to Riverview Terrace and the service road will be maintained at all times via traffic control and police officers.

#### Day Street, Hamilton

From **Monday 16 May 2016**, for approximately one week, power cables will be installed underground from Kingsford Smith Drive to Day Street. This work will be undertaken during standard hours, **7am-6pm Monday to Friday and 8am-1pm Saturday**.

During this work, Day Street will be closed between Kingsford Smith Drive and Cove Street. Detours will be in place and clearly signed. Access to properties will be maintained at all times via traffic control.

#### Quarry Street, Hamilton

From **Sunday 22 May 2016**, for approximately one week, power cables will be installed under Kingsford Smith Drive at Quarry Street. Due to traffic permitting requirements, the majority of this work will occur at night **between 8pm and 5am, Sunday to Thursday**.

May 2016

#### Traffic changes – Sunday 22 May

To minimise noise impacts on local residents, work will be undertaken to saw cut through existing tram tracks across Kingsford Smith Drive at Quarry Street on **Sunday 22 May between 7am and 5pm**. In the event of wet weather, this activity will occur on Sunday 29 May.

Kingsford Smith Drive will be reduced to one lane in each direction between Grays Road and Riverview Terrace, with significant delays expected during this period. Motorists are encouraged to avoid the area and seek alternative routes where possible.

#### Toorak Road, Hamilton

From **Sunday 29 May 2016**, for approximately one week, work will be undertaken to excavate an existing Energex pit and connect new underground power cables at the corner of Kingsford Smith Drive and Toorak Road. Due to traffic permitting requirements, this work will occur at night **between 8pm and 5am, Sunday to Thursday**.

#### What to expect during Energex service installation

- Work will involve the use of road saws, rock breakers, excavators, trucks, compaction equipment and lighting towers
- Vehicles and equipment with flashing lights and white noise (non-tonal) reversing beepers for the safety of onsite workers
- Noise associated with the use of construction equipment
- Temporary traffic changes, including single lane closures and changes to local street access from Kingsford Smith Drive may be required
- Traffic control and signage to direct pedestrians, cyclists and motorists around the work areas, as required
- Property access will be maintained at all times, under the direction of traffic control officers.

Thank you for your patience and cooperation while these works are undertaken.
