

KINGSFORD SMITH DRIVE UPGRADE

Community Notice

October 2018

Changed traffic conditions – Cooksley Street, Albion

From **mid-October 2018 for approximately four weeks**, works will be undertaken to upgrade the verges and pavement along Cooksley Street, between Yulestar Street and Kingsford Smith Drive.

To accommodate these works, the traffic barriers currently on the western side of Cooksley Street will be moved to the eastern side of Cooksley Street, adjacent to the Hamilton BP.

Access to Kingsford Smith Drive from Cooksley Street will remain via one lane, which will allow both left and right-hand traffic movements out of Cooksley Street onto Kingsford Smith Drive. Access to Cooksley Street from Kingsford Smith Drive will remain open to both inbound and outbound traffic.

Additional signage and line marking will be installed to help motorists navigate around the work area.

Some additional lane closures will be required at night and nearby residents will be notified in advance of planned out-of-hours work.

Please see map overleaf for more information about these changes.

In the event of wet weather or unforeseen circumstances, this change may be extended to allow the work activity to be completed safely.

Why are these works happening?

The Kingsford Smith Drive upgrade will improve the capacity of the road to meet the future needs of the traffic network on one of Brisbane's busiest roads.

The upgrade involves widening the road from four to six lanes between Theodore Street at Eagle Farm and Cooksley Street at Hamilton. It also includes improvement works between Cooksley Street and Breakfast Creek Road at Albion.
