

KINGSFORD SMITH DRIVE UPGRADE

Project construction update

April 2017

During April 2017, the Kingsford Smith Drive upgrade will continue major construction activities.

Land-based activities between Amy Street and Theodore Street will include:

- street light and traffic signal work
- road widening and drainage activities on Cooksley and Yulestar Streets
- service location and installation works
- major earthworks and drainage installation
- centre median removal east of Nudgee Road
- pavement construction
- asphaltting and line marking
- relocation of concrete traffic barriers.

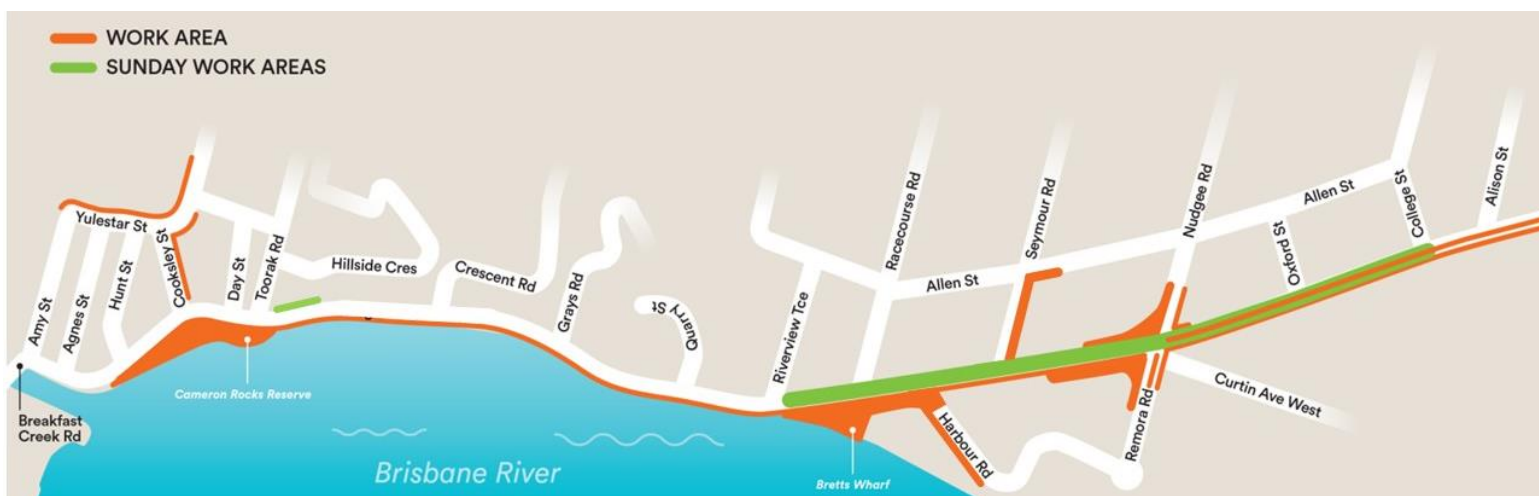

Marine-based construction activities will include:

- installation of scour protection mattresses
- excavation of the existing river bank retaining wall
- ground improvement works
- piling for the new river walk structure
- production and installation of precast concrete segments that will be used in the river walk structure
- construction of the main retaining wall structure.

What to expect

Work will involve:

- use of construction equipment including excavators, trucks, compaction equipment, road saws, vacuum excavators, concrete trucks, small cranes, barges, piling rigs, pumps and lighting towers
- noise associated with the use of construction equipment
- increased light and heavy vehicle movements associated with construction activities
- vehicles and equipment with flashing lights and white noise (non-tonal) reversing beepers for the safety of onsite workers
- changed traffic conditions including lane, footpath and parking closures, as required
- traffic control and signage to direct pedestrians, cyclists and motorists, as required
- increased barge movements across the river.

KINGSFORD SMITH DRIVE UPGRADE

ANZAC Day 2017 at Cameron Rocks Reserve

On **Tuesday 25 April**, the Clayfield-Toombul RSL sub-branch will host its annual ANZAC Day dawn service at the Hamilton War Memorial at Cameron Rocks Reserve.

Commencing at 5am, the service will be held at the recently relocated memorial at Cameron Rocks Reserve, Kingsford Smith Drive, Hamilton. Following the service, a Gunfire breakfast will be held on site.

Residents of the local community are invited to attend and commemorate this important national day of remembrance.

Temporary lane closures on Yulestar Street, Albion

As part of improvement works between Cooksley Street and Breakfast Creek Road at Albion, asphalt works will be taking place on the northern side of Yulestar Street during April and May.

Lane closures and stop/go traffic control will be required on Yulestar Street during this work. Access to side streets and all properties will be maintained at all times and traffic controllers and additional signage will be in place to assist motorists.

Some lane closures will be in place for 24 hours during these works, however the majority of works will take place from 7am to 6pm Monday to Friday and 8am to 5pm Saturdays. If out-of-hours work is required, directly impacted residents will be notified.

Register for construction updates

The project team encourages nearby residents to register for updates at www.ksdupgrade.com.au

To register for SMS alerts prior to high impact work near your property, contact the team on 1800 084 383 or via email at info@ksdupgrade.com.au

Work on Sunday – KSD changed traffic conditions

Lendlease will continue to undertake construction activities between 7am Sunday and 5am Monday over a number of consecutive weekends until early May 2017.

Work will involve digging trenches across Kingsford Smith Drive to install underground services at various locations between Riverview Terrace and College Street, Hamilton.

The additional Sunday shifts will reduce the impact of night work on local residents by allowing the project team to complete construction activities during the day that would otherwise need to be carried out at night.

During this work, traffic control will be in place on Kingsford Smith Drive with one lane open to traffic in each direction. Access to all side streets and properties will be maintained under the direction of traffic control.

Change to night works construction hours

Changed construction hours for night time activities are currently being trialled to allow some noisier activities to be completed earlier in the shift.

Where night works are required, the trial allows for **works to start from 7pm between Harbour Road and Theodore Street, and from 8pm between Amy Street and Harbour Road**. Impacts to traffic will continue to be monitored and a longer term decision about night works hours will be made in the coming months.

Night works activities will take place between Sunday and Thursday. If out-of-hours work is required, directly impacted residents will be notified.

Day time construction activities will continue to take place from 7am-6pm, Monday to Friday from 8am-5pm on Saturdays and on selected Sundays.
