

KINGSFORD SMITH DRIVE UPGRADE

Project construction update

April 2019

Major construction activities will continue on the Kingsford Smith Drive upgrade during April 2019.

Construction activities between Amy Street and Theodore Street will include:

- street light work and traffic signal changes
- investigation and installation of utility services
- major earthworks
- drainage activities
- pavement construction, asphalt works and line marking
- footpath, kerb and driveway construction
- ground improvement works
- concrete truck deliveries
- landscaping activities.

Work will involve:

- use of construction equipment including excavators, trucks, jackhammers, road saws, vacuum excavators, concrete trucks, cranes, pumps and asphalt and compaction equipment
- noise and light associated with the use of construction equipment
- changed traffic conditions including lane, footpath and parking closures with traffic control and signage to direct pedestrians, cyclists and motorists, as required
- night work and Sunday work as required.

Night works and temporary traffic changes

Harbour Road to Theodore Street, Hamilton

From **mid-April 2019 for approximately three months**, night works will be carried out on Kingsford Smith Drive between Harbour Road and Theodore Street, Hamilton.

These works will include:

- lane closures on Kingsford Smith Drive and temporary closures of some side roads and driveways – impacted residents will be notified ahead of any changes to their property and/or residential street access
- removing the concrete barriers in the centre median using a small crane
- installing a section of stormwater drainage pipes with road saws, jackhammers, excavators and trucks
- installing vehicle detector loops for signalised intersections into the asphalt using road saws
- removing the existing top layer of asphalt with a profiler and trucks
- placing the final top layer of asphalt with asphalt paving machines, trucks and rollers
- permanent line marking of the new road alignment with a line marking vehicle.

Local residents may be able to see and hear this work from their property. In addition, asphaltting works can produce a minor chemical odour. Please note, the project team will undertake the noisiest work early in the shift, where possible.

In the event of wet weather or unforeseen circumstances, these works may be extended or rescheduled to allow the activities to be completed safely.

All construction work east of Harbour Road is expected to be completed in mid-2019, at which point this section of Kingsford Smith Drive will open to three lanes of traffic in each direction.

Cameron Rocks Reserve will be open for the ANZAC Day dawn service on 25 April 2019.

Major weekend works

To enable completion of drainage works, major construction activities across Kingsford Smith Drive are required.

The project team will complete a number of these activities over weekends in April 2019. During these periods, Kingsford Smith Drive will be reduced to one lane in each direction between Agnes Street and Toorak Road.

Further information regarding these works will be distributed prior to the work periods.

Why are these works happening?

The Kingsford Smith Drive upgrade will improve the capacity of the road to meet the future needs of the traffic network on one of Brisbane's busiest roads.

The upgrade involves widening the road from four to six lanes between Theodore Street at Eagle Farm and Cooksley Street at Hamilton. It also includes improvement works between Cooksley Street and Breakfast Creek Road at Albion.
