

KINGSFORD SMITH DRIVE UPGRADE

Community notice

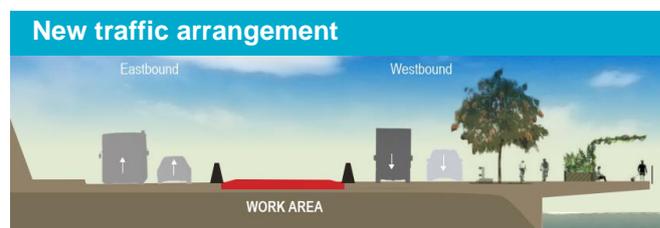

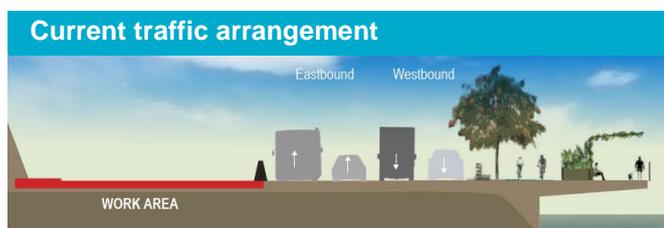

Final stage of construction

August 2020

The Kingsford Smith Drive upgrade is entering its final stage of construction, with the project anticipated to be completed during the second half of 2020. In **late August 2020**, works will begin to upgrade the centre median of Kingsford Smith Drive between Day Street and Quarry Street, and are expected to continue for approximately two months.

Changed traffic conditions – Day Street to Quarry Street, Hamilton

To accommodate these works, outbound traffic will be moved onto the newly-constructed road pavement on the northern verge of Kingsford Smith Drive between Day Street and Quarry Street.

This stage of construction will require lane closures on Kingsford Smith Drive, as well as temporary traffic changes on some local side streets, to complete asphaltting and line marking activities. Further information will be distributed prior to the implementation of these changes.

These works may also involve temporary access restrictions for properties with direct access from Kingsford Smith Drive. Impacted properties will be notified directly ahead of these works.

Changed pedestrian conditions and changes to outbound bus stop 16

The new northern footpath will open between Day Street and Quarry Street in late August 2020. Additional signage will be installed to help motorists and pedestrians navigate through the work area.

From **late August 2020**, Outbound bus stop 16 (Kingsford Smith Drive at Crescent Road) will return to its permanent location on Kingsford Smith Drive just east of Crescent Road. See map overleaf for further information.

See map overleaf for information about the upcoming changed conditions, as well as bus stop changes.

In the event of wet weather, unforeseen site conditions or government requirements (COVID-19), this timeframe may be extended to allow the works activities to be completed safely.

Major Sunday works

From **6.30am Sunday 30 August to 5am Monday 31 August 2020**, temporary traffic barriers will be installed in the centre of Kingsford Smith Drive between Day Street and Quarry Street to complete the new traffic arrangement.

During these works lane closures will be in place on Kingsford Smith Drive. Delays are expected, and motorists are encouraged to allow additional travel time or seek alternate routes, where possible.

In the event of wet weather, unforeseen site conditions or government requirements (COVID-19), these activities may be rescheduled to **6.30am Sunday 6 September to 5am Monday 7 September 2020**.

Changed traffic and pedestrian conditions – Day Street to Quarry Street, Hamilton

Intermittent night works – from late August 2020

During this next stage of construction, night works will be carried out intermittently on Kingsford Smith Drive between Day Street and Quarry Street. These night works will allow the project team to complete construction activities such as traffic signal and street light commissioning, asphaltting and line marking during the final stage of construction.

Residents on Kingsford Smith Drive and local side streets may be able to see and hear this work from their property. We thank you for your patience while we complete this important road upgrade.

This next and final phase of construction includes:

- Construction of new kerb
- Construction of the new centre median
- installation of new street lights and traffic signals
- Asphaltting activities
- landscaping
- Line marking.
