

KINGSFORD SMITH DRIVE UPGRADE

Community Notice

May 2019

Major weekend traffic changes – Friday 24 May – Monday 27 May 2019

To enable pavement construction at the intersection of Cooksley Street and Kingsford Smith Drive, major construction activities are required.

To reduce the impact and duration of ongoing night work on local residents, the project team will undertake installation of new pavement over a weekend in late May 2019.

Traffic changes on Kingsford Smith Drive and lane closures at the Cooksley Street intersection will be required from 7pm Friday 24 May to 5am Monday 27 May 2019.

During this period, Kingsford Smith Drive will be reduced to one lane in each direction between Agnes Street and Toorak Road, with two lanes maintained in each direction during peak times on Saturday.

Please see map overleaf for more information.

Significant delays are expected and motorists are encouraged to allow additional travel time or seek alternate routes, where possible. See map overleaf for closures and detour routes.

Why are these works happening?

The Kingsford Smith Drive upgrade will improve the capacity of the road to meet the future needs of the traffic network on one of Brisbane's busiest roads.

The upgrade involves widening the road from four to six lanes between Theodore Street at Eagle Farm and Cooksley Street at Hamilton. It also includes improvement works between Cooksley Street and Breakfast Creek Road at Albion.

What can I expect?

- Works will be completed 24 hours a day, from 7pm Friday to 5am Monday, when traffic volumes on Kingsford Smith Drive are lower.
- Construction equipment including excavators, trucks, jackhammers, compaction equipment, road saws, vacuum excavators, small cranes and asphalt equipment.
- Noise and lights associated with the use of construction equipment, including vehicles and equipment with flashing lights and white noise (non-tonal) reversing beepers for the safety of onsite workers.
- Changed traffic conditions, including traffic lane and footpath closures with traffic control and signage to direct pedestrians, cyclists and motorists, as required.

In the event of wet weather or unforeseen circumstances, these works will be carried out on the next available weekend.
