

KINGSFORD SMITH DRIVE UPGRADE

Community Notice

Construction work on Seymour Road and Allen Street

April 2017

From **late April 2017**, the westbound lane on Allen Street will be temporarily closed at Seymour Road to install water tanks to manage ground water in preparation for the installation of a new gas pipe in the area. The pump and tanks will be housed inside two shipping containers.

In addition, Seymour Road will be temporarily closed between Kingsford Smith Drive and Allen Street from **mid-May 2017** while the new gas pipe is being installed. The new pipe will be installed beneath Kingsford Smith Drive working from south to north and continuing along Seymour Road into Allen Street.

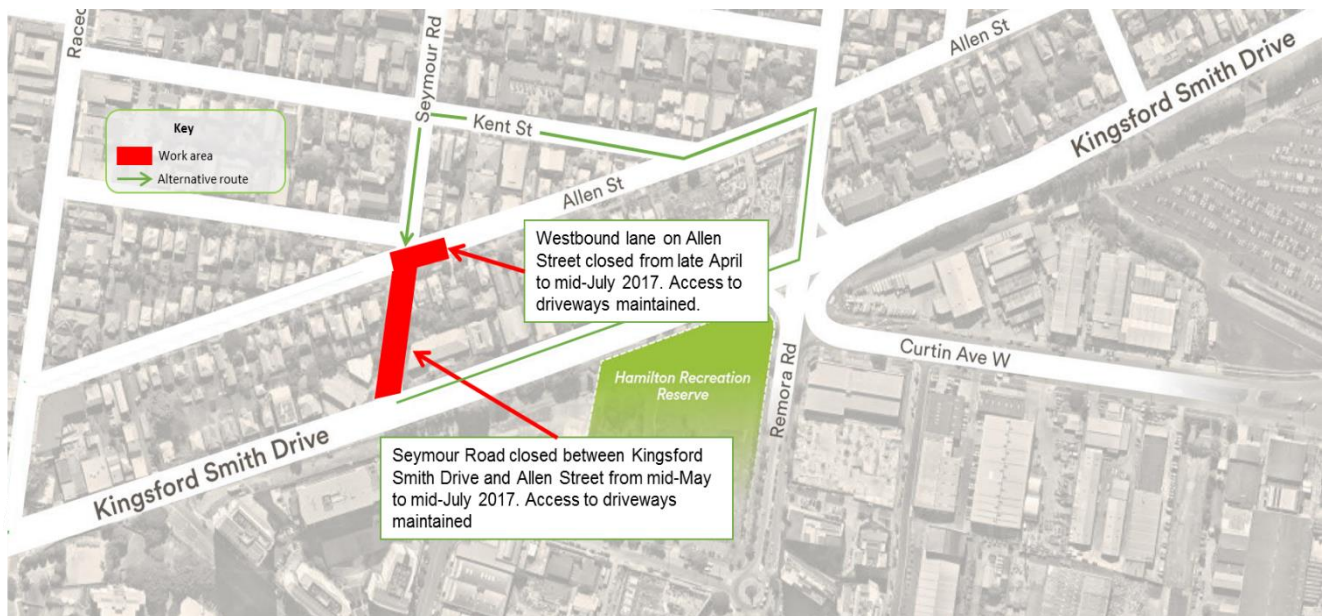

Both road closures will remain in place until mid-July 2017.

Work will be undertaken from Monday to Friday between 7am and 6pm and on Saturdays between 8am and 5pm. Work will involve the use of excavators, trucks, vacuum excavators and pumps to excavate a large pit and trenches to install gas pipes and connections.

Detour signs will be installed to help pedestrians and motorists navigate through the area during the closures.

Pedestrian access will be maintained through the work site. Driveway access will be maintained at all times under the direction of traffic control officers.

In the event of wet weather or unforeseen circumstances, this work may be extended.
