

KINGSFORD SMITH DRIVE UPGRADE

Community Notice

Site investigation activities

March 2016

From late March to May 2016, Lendlease will undertake site investigations in preparation for the start of major construction activities for the Kingsford Smith Drive upgrade.

These investigations include:

- locating underground services
- land and water based geotechnical investigations
- land surveys.

Investigations will be undertaken on Kingsford Smith Drive and in adjacent public land between Breakfast Creek Road and Theodore Street, as well as within the Brisbane River. These activities are expected to be undertaken at the locations identified on the map overleaf.

The majority of works will be completed at night from 8pm-5am from Sunday to Thursday to maximise safety for motorists and road workers and to minimise traffic disruptions.

Where works are not required on or directly adjacent to the road, investigations will be undertaken during standard work hours from 7am-6pm, Monday to Friday and 8am-1pm on Saturdays.

Some lane closures will be required for these works. Traffic control will be on-site to direct traffic. A minimum of two lanes in each direction will remain open to traffic on Kingsford Smith Drive during morning and afternoon peak hours and a minimum of one lane in each direction will remain open at all other times during the work.

This work may be postponed due to wet weather and unforeseen circumstances and additional night work may be required. If additional night work is required, we will endeavour to notify residents in advance.

What to expect

- Use of a concrete drill, drill rig, corer, excavators, vacuum excavator (sucker truck) and lighting towers.
- Vehicles and equipment with flashing lights and white noise (non-tonal) reversing beepers for the safety of onsite workers.
- Ground investigations completed from the river using a drilling rig mounted on a barge. Some out of hours barge movements due to tidal influences.
- Noise associated with the use of construction equipment.
- Temporary single lane closures on the eastbound and westbound lanes of Kingsford Smith Drive, between Hunt Street, Albion and Theodore Street, Hamilton.
- Parking lane closures on side streets prior to and during surveying activities.
- Traffic control and signage to direct pedestrians, cyclists and motorists around the work areas, as required.

465 Kingsford Smith Drive

From **April 2016**, the Hamilton Community Centre at 465 Kingsford Smith Drive will be demolished in preparation for the construction of a temporary site office.

Demolition activities are expected to take 3-4 weeks to complete and will be undertaken during the day.

More information about the construction of the site office will be provided to the community over the coming weeks.
