KINGSFORD SMITH DRIVE UPGRADE

Construction update

April 2016

Site establishment and early works update

Lendlease is establishing site offices in preparation for the start of major construction activities in May 2016.

Site offices are being built at:

- 605 Kingsford Smith Drive – main project office, visitor centre and staff car park
- Bretts Wharf – site office and staff car park
- Albion Park Racecourse – site compound and staff car park.

All offices are expected to be established and operational in June 2016.

Public access to Bretts Wharf car park

Public access to the car park has permanently closed.

Access for vehicles to turn into the car park entrance to perform U-turns will close **from mid-2016.**

Pedestrian access to Bretts Wharf ferry terminal will be maintained throughout construction.

Vegetation removal

From **late April/early May 2016**, selected trees will be cleared along the project route at several locations. See map overleaf for clearing areas.

Site clearing activities will be undertaken in accordance with all required approvals.

Fauna spotter-catchers will conduct pre-clearing surveys and be on site during clearing activities.

Where possible, works will take place during standard hours, 7am-6pm Monday to Friday and 8am-1pm Saturday.

However, some tree clearing will be required at night **between 8pm and 5am, Sunday to Thursday** due to traffic permit requirements and to ensure the safety of motorists and construction workers.

Ongoing night work

During May and June 2016, Lendlease will continue to undertake service location and geotechnical investigations between Cooksley Street and Theodore Street.

These activities will be undertaken on both land and in the river.

The majority of works will be completed **at night from 8pm-5am from Sunday to Thursday** to maximise safety for motorists and road workers and to minimise traffic disruptions.

There will also be some barge movements required at night due to tide levels on the Brisbane River.

Where works are not required on or directly adjacent to the road, investigations will be undertaken during standard work hours from 7am-6pm, Monday to Friday and 8am-1pm on Saturdays.

For further information please contact 1800 084 383.
