

KINGSFORD SMITH DRIVE UPGRADE

Project construction update

July 2018

Major construction activities will continue on the Kingsford Smith Drive upgrade during July 2018.

Land-based activities between Amy Street and Theodore Street will include:

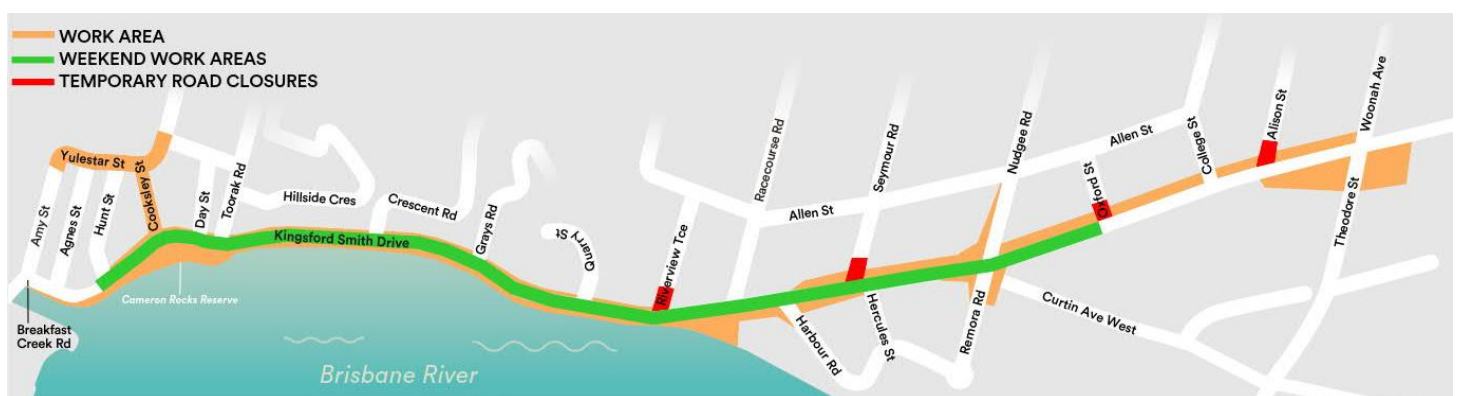

- street light work
- investigation and installation of underground services
- major earthworks
- drainage activities
- pavement construction, asphalt works and line marking
- footpath construction
- landscaping
- ground improvement works
- backfilling behind the marine structure
- concrete truck deliveries.

Work will involve:

- use of construction equipment including excavators, trucks, jackhammers, compaction equipment, road saws, vacuum excavators, concrete trucks, cranes, barges and pumps
- noise and light associated with the use of construction equipment
- changed traffic conditions including lane, footpath and parking closures with traffic control and signage to direct pedestrians, cyclists and motorists, as required
- barge movements across the river
- night work and Sunday work as required.

Temporary road closure – Riverview Terrace, Hamilton

From **Monday 23 July 2018 for up to eight months**, Riverview Terrace will be closed to traffic in both directions at Kingsford Smith Drive.

This closure is required to allow for the installation of stormwater infrastructure and new underground services, and construction of the new road pavement.

Closing Riverview Terrace allows the project team to achieve greater productivity and carry out the majority of these works during the day.

During this period, right turn access to Riverview Terrace from Kingsford Smith Drive will be provided via Seymour Road.

Traffic will be detoured around the closure with additional signage installed to help motorists and pedestrians navigate around the work area.

For detailed detour maps and more information about these works visit www.ksdupgrade.com.au

Temporary road closure – Oxford Street, Hamilton

From **Wednesday 18 July 2018 for up to two months**, Oxford Street will be closed at Kingsford Smith Drive to traffic in both directions.

This closure is required to allow for the installation of stormwater infrastructure and new underground services, and construction of the new road pavement.

Traffic will be detoured around the closure with additional signage installed to help motorists and pedestrians navigate around the work area.

For detailed detour maps and more information about these works visit www.ksdupgrade.com.au

Why are these works happening?

The Kingsford Smith Drive upgrade will improve the capacity of the road to meet the future needs of the traffic network on one of Brisbane's busiest roads.

The upgrade involves widening the road from four to six lanes between Theodore Street at Eagle Farm and Cooksley Street at Hamilton. It also includes improvement works between Cooksley Street and Breakfast Creek Road at Albion.

Major weekend traffic changes – July 2018

To enable underground service and stormwater installation works, major construction activities across Kingsford Smith Drive are required.

To reduce the impact and duration of ongoing night work on local residents, the Kingsford Smith Drive upgrade team will complete a number of these activities over weekends in July 2018.

To complete these works, Kingsford Smith Drive will be reduced to one lane in each direction in sections **between Hunt Street, Albion and Oxford Street, Hamilton** (see map overleaf) on the following weekends in July:

- 7pm Friday 6 July to 5am Monday 9 July
- 7pm Friday 20 July to 5am Monday 23 July
- 7pm Friday 27 July to 5am Monday 30 July.

Significant delays are expected and motorists are encouraged to allow additional travel time or seek alternate routes, where possible.

What can I expect?

- Works will be completed 24 hours a day, from 7pm Friday to 5am Monday, when traffic volumes on Kingsford Smith Drive are lower.
- Construction equipment including excavators, trucks, jackhammers, compaction equipment, road saws, vacuum excavators, small cranes and asphalt equipment.
- Noise and lights associated with the use of construction equipment, including vehicles and equipment with flashing lights and white noise (non-tonal) reversing beepers for the safety of onsite workers.
- Changed traffic conditions, including lane and footpath closures with traffic control and signage to direct pedestrians, cyclists and motorists, as required.
- Access to local streets and private property will be maintained during these works.
