

# KINGSFORD SMITH DRIVE UPGRADE

## Community Notice

### Site compound at 405 Thynne Road, Morningside

June 2016

Lendlease is establishing a site compound at 405 Thynne Road, Morningside, to facilitate construction of the Kingsford Smith Drive upgrade.

#### Site establishment activities

From **late-June 2016**, site preparation work will start, including construction of the site entrance and laydown areas and the delivery of demountable buildings.

Works are expected to take approximately six weeks to complete. Once established, the site compound will remain in place for the duration of marine construction activities, which are expected to be completed in 2018.

#### What to expect during construction

- Use of equipment such as excavators, vacuum excavators (sucker truck), trucks, graders, rollers and cranes.
- Truck movements to deliver equipment to site.
- Noise associated with use of equipment during site construction.

We will make every effort to minimise work impacts by:

- ensuring all workforce park in dedicated parking areas and not on local streets
- turning off machinery when not in use
- using white noise reversing beepers on all machinery
- using dust mitigation strategies such as watering down the site.

#### Construction hours

Site establishment work will take place from 7am-6pm, Monday to Friday and from 8am-1pm on Saturday.

#### Operational hours

The site compound will be operational from 6pm Sunday to 1pm Saturday.

#### Site facilities at 405 Thynne Road, Morningside

The site compound will include a number of demountable buildings for project staff, toilets, and lunch room facilities as well as an area for workforce parking.

This site will be used for the construction of precast concrete materials and as a laydown and staging area for the storage of construction equipment and materials prior to delivery via barge to the construction site.

Vehicle access to the site compound will be via Thynne Road. Barge movements to and from the site compound will be via the existing facilities. Please see map below for more details about the site compound layout.

Upon completion of the upgrade, the site compound will be removed and the impacted area reinstated.

#### Working with the community

Lendlease is committed to minimising impacts on local residents during construction of the Kingsford Smith Drive upgrade and we look forward to working with you throughout construction.
