

KINGSFORD SMITH DRIVE UPGRADE

Project construction update

November 2020

The Kingsford Smith Drive upgrade is now complete, with all six lanes open to traffic and the speed limit reinstated to 60km/h.

Minor maintenance will continue on Kingsford Smith Drive intermittently during November and December 2020. These final close-out activities will be undertaken between Day Street and Seymour Road, and will include:

- maintenance on underground and above ground services
- road maintenance
- landscaping maintenance
- minor finishing works.

Where possible work will be undertaken between 7am and 5pm. However, some night work will be required between 7pm and 5am, Sunday to Thursday due to

traffic permit requirements and to ensure the safety of motorists and construction workers.

Depending on the activity, work may involve:

- use of construction equipment and machinery
- noise and light associated with the use of construction equipment
- changed traffic conditions including lane, and parking closures at night with traffic control and signage to direct pedestrians, cyclists and motorists, as required
- footpath closures, as required.

Thank you for your patience and understanding.
